Bocca, A. D., Biography 355
BOD
removal of, from wastewater, by treatment with biomass to produce methane 26

Book review
on enzyme technology in beamhouse practice 164
Borax
soak liquor containing phenol and, hydrogen peroxide in treatment of 5
Carbonization
of wool, products of, in cosmetics 382
ß-Carboxyethyl acrylate
reaction with collagen, for improved chrome tanning 363
Carboxyl group
introduction to collagen, for improved chrome tanning 363
introduction to hides by Feliderm CS, for improved chrome tanning 380
Carboxylic acids
in chrome tanning, pH in relation to 112
Catalysts
ferrous sulfate, in hydrogen peroxide treatment of soak liquors containing borax and phenol 5
Cattle
Demodex bovis in body fluids and tissues of 211
Demodex bovis endoparasitic phase in 396
Celrad CMD 6700
polymers with acrylic monomers, color coats for side leather, radiation-cured 262
CHANDRAN, M., Biography 232
Chelating agents

pH in, carboxylic acid effect on 112
re-, of E.I. skins 284
re-, of wet-blue hides, maximum exhaustion of liquors in 361
re-, recycling of liquors from, for wet-blue hides 69
re-, recycling of wastewater from 235
with chrome recovered from wash liquors by precipitation with magnesium oxide ... 17
Chromium
complexes, interactions with neutral salts 69

complexes, separated from masked chromium chloride solutions, stability of 67
leachability of, from solid tannery wastes 220
trivalent, anaerobic digestion of wastewater in relation to 389
CHUANBO, ZHANG, Biography 144
Citric acid
in chrome tanning, pH in relation to 112
Coating materials
acrylic polymers, color coats for side leather, radiation-cured 262
emulsions 95
waterborne, from plastics and polymers 87
wet strength of, crosslinking effect on 151
Collagen
carboxyl group introduction to, for improved chrome tanning 363
crosslinking of, review on 360
in hide grain membrane layers 380
membranes, for medical use 385, 387
oriented gels from, for biomaterials 372
reactions of, with polyphenols 337
reactivity with 2-naphthalenesulfonic acid-formaldehyde condensates 235
Collagenase
inhibitors for, thiols as 385
Color
matching of, computers in, for dyeing garment suede leather 182
Composting
of tanning wastewater sludge 286
Computerization
of equipment maintenance 157
Computers
in color matching for dyeing garment suede leather 182
personal, for process control in automation of drumming 350
Corrosion
of metals by leather 336
Cosmetics
wool carbonization products in 382
Cracking
of finishes 84
Crosslinking
of coating materials, wet strength in relation to 151
of collagen or keratin, review on 360
radiation-induced, of acrylic color coats for side leather 262
Curing
with borax-phenol mixture, hydrogen peroxide treatment of soak liquor from 5
Customs
duties on hides and leather 151
Degreasing
of pickled skins with Flugene 113 181
Deliming
agents for, magnesium sulfate with sulfuric acid as 35
chrome uptake in relation to conditions of 68

with cyclic esters of sulfurous acid 388
Demodex bovis
endoparasitic phase of, in cattle 396
in body fluids and tissues of cattle 211
Denitrification
-nitrification process for wastewater treatment from pickling 336
Discoloration
yellowing, of pickled pelts during storage, prevention of 335
Dressing
of rabbit pelts 335
Drumming
automation of, computers for process control in 350
control of, in pickling, tanning, and dyeing 335
dynamics of, and its effects on leather 150
Drying
drum operation in, process control of 335
of leather, primary frame 114
DUNCAN, J. R., Biography 406
Dyeing
of furs, with sulfur dyes 384
of garment suede leather, color matching for, computers in 182
of leather substitutes from polyamide fibers and polyurethanes 31
of leather with reactive dyes 31
with sulfur dyes 383
Dyes
for leather handicrafts, color fastness and solubility of 68
naphtholazo benzoylalkylene animes as, for acid-modified leather or paper or textiles . 27
reactive, in leather dyeing 31
sulfur, dyeing with 383
Effluents, *See* Wastewater
EITNER, W.
experiments on chrome tanning 381
Electron beam
crosslinking by, or acrylic color coats for side leather 262
hide and leather preservation by irradiation with 46
Emulsions
as coatings 95
Energy
recovery of, by anaerobic digestion of tanning sludges 113
Enzymes
in hide unhairing 34
in beamhouse processes, review on 289
proteolytic, inactivation of 237
technology of, in beamhouse practice, book review on 164
Epidermis
solubility of, in sulfide solutions 236
2-Ethylhexyl acrylate
polymers with acrylic monomers, color coats for side leather, radiation-cured 262
Fatliquoring
leather physical properties in relation to 286
Fatliquors
amphoteric surfactants in 388

cationic, for retanned side leather 239
from lipids recovered from fleshings 335
Fatty acid amides
waterproofing with 152
Feeding
hide characteristics in relation to 150
Feliderm C S
carboxyl group introduction to hides by, for improved chrome tanning 380
Ferrous sulfate
as catalyst in hydrogen peroxide treatment of soak liquors containing borax and phenol . 5
Fertilizers
tanning sludges for 113
Fibers
orientation of, in stretched, partially dried hides 115
Filtration
of proteins from water 63
Finishes
adhesion of 100
in base coats for leather, stress-strain characteristics of 284
cracking of 84
polymers as, aqueous 74
polyurethane dispersions as 317
for water-resistant leather 362
Finishing
air pollution prevention in 112
aqueous systems for 74
new machinery in 98
of mineral-tanned leathers with polymer dressings 64
of snake skins 181
optimization of 72
spray machine for, transfer efficiency of 125

Flavonols
of *Parkia clappertoniana* 153
Fleshings
lipids from, fatliquors from 335
Flugene 113
degreasing of pickled skins with 181

Footwear
toes, steam presses for 29
Formaldehyde
condensates with 2-naphthalenesulfonic acid, reactivity with collagen 235
extraction of, from leather 68
Friction
of leather, abrasion resistance in relation to 284
Frogs
skins of, tanning of 361
Fungicides
thiocyanomethyl thiolbenzothiozol, for wet-blue hides 360
Furs
cutting and folding and sewing of 408
dyeing of, with sulfur dyes 384
rabbit, dressing of 335
sulfonated lubricating agents for 31
Gallic Acid
reactions of, with collagen 337
GEGHAN, J. MICHAEL, JR., Biography 163
Gelatins
preparation of, from chrome leather by lime pretreatment 70
Glass
automobile, fogging of, by volatile substances from upholstery leather 114
Goats
domestic, breeds of 181
Goatskin
Chinese Hankow, histological characteristics of 129
GREIF, MORTIMER
Alsop Award to 279
HAAS, MICHAEL J., Biography 58
Hair
development of, in mink fur, age effect on 67
preservation of, in unhairing 150
recovery process for, in beamhouse 183
roots, solubility of, in sulfide solutions 236
Handicrafts
leather, dyes for, color fastness and solubility of 69
Hide defects
causes and prevention of 150
loose grain, causes of 114
Hides
analysis and evaluation of, statistical methods in 336
characteristics of, on intensive feeding vs. in wild state 150
customs duties on 151
fiber orientation and small-deformation of stretched, partially dried 115
grain membrane of, layerwise decomposition of 380
mold growth on, pickling effect on 380
pickled, yellowing of, during storage, prevention of 335

preservation of, by eletron beam irradiation 46
proteoglycane determination in green and unhaired 237
pulling machines for 65
refrigeration of fresh 238
wet-blue, fungicides for, thiocyanomethyl thiobenzothiozol as 360
wet-blue, recycling of waste chrome retanning liquors for 69
wet-blue, soluble content and mildew resistance of 381
wet-blue vs. wet white 380
Histological characteristics
of Chinese Hankow goatskins 129
HUGHES, K. E., Biography 378
HUTSON, T. B., Biography 378
Hydrocarbons
paraffin, pour-point depressants for, poly (ester-amides) as 29
Hydrogen peroxide
in wastewater treatment for soak liquor containing borax and phenol 5
Hydrogen sulfide
formation prevention of, in methane production from sewage sludge, by addition of oxygen 34
removal of, chelating agent degradation prevention in 30
Inorganic salts
chrome penetration in hides in relation to 151
IULTCS
executive committee meeting 110
Prize Paper for Twentieth Congress of 234
JACKSON-MOSS, C.A., Biography 406
Jet stream
leather cutting by 237
JINSHEN, PAN, Biography 144

Lamination
of shoe materials 28
Laser
leather cutting by 237
Lasting
of stitch decorated upper leather, scanning electron microscopy of 284
Leather
abrasion resistance of, friction and morphology effect on 284
acid-modified, dyes for, naphtholazo benzoylalkylene amines as 27
aniline-dyed, fastness of, to perspiration and solvents and water 236

chrome, gelatin preparation from, by lime pretreatment 70
chrome, shavings, hydrolysis of, by proteinase of *Pseudomonas aeruginosa* 285
customs duties on 151
cutting of, by jet stream and knife and laser and punching machine 237
drumming effect on 150
formaldehyde extraction from 68
flammability of 362
lasting behavior of stitch decorated upper, scanning electron microscopy of 284
manufacture of, chemicals used in, decrease of amounts of 336
manufacture of, machinery for, development of 335
manufacture of, mildew in 362
metal corrosion by 336
microorganism control on 382
mildew on, in shoe factories 113
mildew prevention on, by Preventol CR 236
milled, for chemical analysis 210
moisture determination in semi-processed and finished 286
mold growth on, hide pickling effect on 380
pigskin, properties of, beamhouse effect on 235
preservation of, by electron beam irradiation 46
sheepskin garment, tensile strength and tear resistance of, retanning effect on 151
shrunken-grain, manufacture of, review on 336
suede, manufacture of 383
sulfonated lubricating agents for 31
testing of, standard materials for 112
upholstery, automobile glass fogging by volatile substances from 114
upper, waterproofness properties of 210
waste, chromium leachability from 220
Leather substitutes
from cellular plastic blends and textile 33
odored 387
from polyamide fibers and polyurethanes, dyeing method for 31
Lime
chrome leather pretreatment by, for gelatin preparation 70
Liming
hair-save process in 183
Lipids

Lubricants
for leather, review on 181
sulfonated, for furs and leather 31
Machinery
for tannery operations, development of 335
MADHAVAKRISHNA, W., Biography 24
Magnesium oxide
in chrome precipitation from wash liquors, for recycling 17
Magnesium sulfate
deliming with sulfuric acid and 35

Maintenance
of equipment, computerization of 157
Malonic acid
in chrome tanning, pH in relation to 112
MASILLAMONY, P. RICHARD, Biography 232
Membranes
collagen, for medical use 385, 387
MENDEN, EDWARD, E., Biography 232
Metals
corrosion of, by leather 336
heavy, removal of, from wastewater by precipitation with sulfides 26
Methane
production of, from BOD-containing wastewater by treatment with biomass 26
production of, from sewage sludge, hydrogen sulfide formation prevention in, by addition of oxygen 34
Methyl methacrylate
polymers with acrylic monomers, color coats for side leather, radiation-cured 262
Microorganisms
control of, on leather 382
Mildew
in leather manufacture 362
on leather, in shoe factories 113
prevention of, on leather, by Preventol CR 236
resistance to, of wet-blue hides 381
Mink
growth of, hair development in 67
MITCHELL, J. W.
elected chairman of ASTM committee D-31 on leather 334
Moisture
determination of, in semi-processed and finished leather 286
Molds
growths of, on hides or leather, pickling effect on 380
Morin
of *Parkia clappertoniana* 153
Morphology
of leather, abrasion resistance in relation to 284
Myricetin
of *Parkia clappertoniana* 153
Myrobalans
-naphthalene syntan blend, tanning with, liquor aging effect on 285
NA, G. C., Biography 355
2-Naphthalenesulfonic acid
condensates with formaldehyde, reactivity with collagen 235
Naphthalene syntan
-myrobalans blend, tanning with, liquor aging effect on 285
Naphtholazo benzoylalkylene amines
as dyes for acid-modified leather or paper or textiles 27
Nitrification

-denitrification process for wastewater treatment from pickling 336
Nitrogen
reduction of, in wastewater treatment 150
